The **Motor Vehicle Titles** system tracks all titles issued within the county. The module interfaces with the Vehicle Registration and Vehicle Sales Tax modules, allowing the ability to enter the data in one place, and share it throughout the system. Unlimited history can be stored and retrieved at the touch of a button.

The **Motor Vehicle Titles** module includes all the necessary state and county reports, as well as the electronic transmittal file. Easy title input and error correction make this module very simple to use.
